

DICOS LOG|ESSENTIAL 2.0

Central management for all your logs and performance data and more: Evaluate your metrics, application data and all your business relevant data.

OPEN SOURCE INDIVIDUALLY

Open Distro for Elasticsearch and the DICOS Installation Ready Pack are the foundation for data analysis and search. Start analyzing and displaying the first data sources without the usual configuration and integration effort. With additional Ready Packs, DICOS log|essential 2.0 adapts to your individual requirements.

OPEN INTERFACES

Data can be processed from a wide variety of sources across your entire IT infrastructure, cloud environments and beyond, such as SYSLOG, Windows EventLog, Apache, MySQL as well as transaction or sensor data and even Webpages or documents on file servers. Open interfaces allow the rapid integration of any data from any sources and any formats.

CONSOLIDATED DATA

DICOS log|essential 2.0 is specialized in merging, standardizing and storing your IT logs and metrics as well as any of your business relevant data for central evaluation and display. The data is stored securely (optionally using blockchain technology for audit proof storage) and is protected by a comfortable role-based user and access control.

EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT YOUR DATA, BUT WERE AFRAID TO ASK

Do you know the hidden treasures concealed in your company's huge amount of data? You will be amazed by the new insights you get from analyzing your data. Get an overview of complex correlations - regardless of the type of data: log or performance data, data from financial transactions, energy generation, machine sensors, news reports, logistics etc.

COMFORTABLE Analysis

Gain comprehensive and quick insight into your collected data by evaluating them with DICOS log|essential 2.0. Easily design flexible dashboards for further evaluation, drill down for in-depth analysis and report your results on a regular basis.

DICOS log|essential 2.0 is based on Open Distro for Elasticsearch. With the several DICOS Ready Packs it is the perfect addition to our product portfolio. It is a complete and standalone solution which can be deployed instantly and can be adjusted to your individual requirements.

Dr. Winfried Geyer, Managing Director, DICOS GmbH

DICOS LOG|ESSENTIAL 2.0 Basic System
